Mr. Rob Durand and  
Mr. Brian Toth  
Curves for the Cure  
223 River Oaks  
Milford, MI 48381

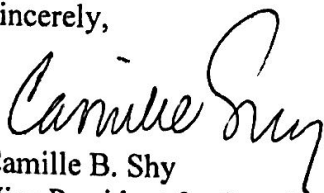

Dear Mr. Durand and Mr. Toth:

Thank you very much for Curves for the Cure's generous gift of \$1,000, in memory of Janine Stackpoole, to support breast cancer research at Saint Joseph Mercy Health System.

Research is an integral component of our cancer care program. The research our physicians do today will help to reveal causes of illness, alleviate symptoms, improve treatments and may help to find cures. Our health system remains one of 50 Community Clinical Oncology Programs in the country. With funding from the National Institute of Health, Dr. Philip Stella leads this program, providing our patients with the opportunity to participate in the latest cancer treatment and prevention trials. We appreciate your gift, which will help us to ensure that our medical staff continues to make significant contributions that improve care for breast cancer.

Once again, thank you for your ongoing support for breast cancer research at Saint Joseph Mercy Health System.

Sincerely,

Camille B. Shy  
Vice President for Development

*P.S. For tax purposes, no goods or services were provided to you by St. Joseph Mercy Hospital in exchange for your gift. Your gift, and any investment income earned on your contribution, will directly support the area you have designated.*
